Teacher evaluations consist of two primary components: **Teacher Practice** (measured primarily by classroom observations) and **Student Achievement** (measured by Student Growth Objectives and, for a select group of teachers, Student Growth Percentiles).

This workshop will assist you in advocating for yourself, **BEFORE** and **AFTER** you have been evaluated by an administrator. By reflecting on data from your observations and student achievement measures, you can focus on your professional goals in order to help you improve your instruction. Make sure your objectives, procedures, and assessments are perceived and understood as you would like them to be. **ONLY YOU** can advocate for yourself.

Under *AchieveNJ*, teachers must consistently demonstrate that they are effective instructors through multiple observations of their practice as well as student growth. Non-tenured teachers hired and Board-approved after August 6, 2012 must be rated Effective or Highly Effective at least twice in their second, third, and fourth years of teaching in the district to be eligible to earn tenure. Likewise, to maintain tenure, teachers must consistently earn ratings of Effective or Highly Effective.

We look forward to seeing you at this valuable workshop!
